

# Pine Valley Youth

(ages 12 - 13)

## **Description:**

GWT (Guarded With Truth) is a junior high level program designed to introduce students to basic apologetics. This is a 12-week course offered throughout the calendar year and is designed to allow flexibility between a classroom setting for these sessions and valuable worship service experience with their families. In addition, this course serves as a preparatory program for the **FOUNDATIONS** class where more advanced apologetic and biblical worldview studies are conducted.

## **Goals:**

The goal of GWT is to ground the faith of our students on a solid setting in order to demonstrate that the Christian faith is not detached from reason, logic, history or reality. With this, our aim is that our students have a firm conviction of why they believe what they believe in light of a huge cultural shift occurring, with which they are on a collision course.

## **Objectives:**

As a result of this course, GWT students will make the connection between faith and reason. They will discover that the Christian faith is attached to a firm foundation and there is consistency and coherency between the "why's" and "what's" of their beliefs.
